

We at Electric Rainbow Entertainments will always put Safety first, so to avoid disagreements on the day **please Please PLEASE!!!!**

**MEASURE YOUR GARDEN Carefully BEFORE WE COME TO DELIVER**

Thank you.

**Bouncy Castle Space Required to Erect a bouncy castle Safely**

	<b>8' Large Slide</b>	<b>Total Space required</b>
<b>Blower &amp; Inflation Tube</b>	5 feet long	<b>28 feet Wide</b>
<b>Front Safety Fall off Mats</b>	3 x 6 feet each mat	<b>35' long</b>
<b>Slide Length</b>	35' Back To Front	<b>16' feet high</b>
<b>Slide Height</b>	15' Feet Floor to Ceiling inc Arch	
<b>Slide Width</b>	12' Feet Wide inc Bellow Also needs 8' each side spare space for Guy Lines and anchor points.	

It is Recommended that a space of 1 metre or 36 inches is left clear around the whole of the castle to allow for the castle to “SWAY” from side to side.

Thank you.
